

4.

Molly has £540.67 in the bank.

She buys her weekly shopping that costs £60.72

How much money does Molly have left in the bank?

5. In your books you must explain the error in each question before working them out again.

Find the errors and correct them.

Calculation	Error	Correction
$\begin{array}{r} 4.02 \\ + 35.01 \\ \hline 75.21 \end{array}$		
$\begin{array}{r} 53.49 \\ - 3.78 \\ \hline 50.31 \end{array}$		

Challenge questions

Can you work out the missing digits in these calculations?

	3	<input type="text"/>	•	1	<input type="text"/>
+		4	•	2	3
	<input type="text"/>	5	•	<input type="text"/>	2

	7	7	<input type="text"/>	•	9
−	<input type="text"/>	<input type="text"/>	8	•	<input type="text"/>
	4	4	4	•	4

Can you use five of the digits 1 to 9 to make this number sentence true?

$$\square \square \cdot \square + \square \cdot \square = 41.7$$

Can you find other sets of five digits to make this number sentence true?
