## **Comparing height**

Go for a hunt around your house to find 5 things that are shorter than you, 5 things that are taller and 5 things that are the same height as you (if you can! You might have to build something that is the same height as you—such as a pile of books on a chair). Remember that each item must start on the floor besides your feet. Draw or write in the table.

| Items shorter than you | Items taller than you | Items the same height as you |
|------------------------|-----------------------|------------------------------|
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
|                        |                       |                              |
