

Comparing length

Hunt around your house to find 3 items that are shorter than a teaspoon and 3 items that are longer than a teaspoon. Draw or write in the table.

Shorter than a teaspoon	Longer than a teaspoon

Find any 3 items—compare them to see which item is shortest, which is longer and which is longest. Remember when comparing 3 items, you have to put them all at the same starting point. Draw or write in the table.

Shortest	Longer	Longest
