Guten Tag Klasse! Wie gehts?

This week for your German lesson, let's practise colours again. Can you remember how to say the colours in German? Think back to the work we have just completed on the Berlin Wall graffiti art in Y5 and the artist Paul Klee in Y6. If you still need some help, have a look at one of these websites:

Have a go at completing as many of these activities as possible:

- 1) Watch this video clip between German and English friends – what colours can you recognize in German?

[German KS2: Painting and colours in German - BBC Teach](#)

- 2) Complete the worksheet colouring in the different splodges in the correct colour. Can you unjumble the letters too, to spell the colour correctly in German?

- 3) This cartoon clip contains lots of German colours – how many will you know?

- 4) Can you draw a rainbow 'ein Regenbogen' and label all the colours in German?

Viel Spaß - have fun!
