

Caterpillar Number Bonds to 10 Bar Modelling Activity

Challenge children to use bar modelling to explore number bonds to 10. Children can look at the caterpillars shown on the bars to find how many are missing.

You will need:

- Caterpillar Number Bonds to 10 Bar Modelling Posters

Activity

Explain that there are ten caterpillars but some are hiding! Encourage children to look at the bar model and identify the number of caterpillars in the top bar – there are ten caterpillars altogether. Then, look at the lower bar. How many are shown? How many are missing? Challenge children to use the bar model to find the number of caterpillars that are missing.

Caterpillar Number Bonds to 10

There were 10 caterpillars but some are hiding!

How many caterpillars have we found?

How many should we have?

How many caterpillars are hiding?

Can you check that there are 10 altogether?
