

Butterfly Addition to 10

How many counters are in each butterfly wing? Count them and solve the calculation.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

Draw the counters into the butterflies' wings and solve the calculation.

$$\boxed{4} + \boxed{3} = \boxed{}$$

$$\boxed{8} + \boxed{2} = \boxed{}$$

$$\boxed{5} + \boxed{1} = \boxed{}$$

$$\boxed{5} + \boxed{4} = \boxed{}$$

Draw the correct number of counters into the empty butterfly wing. Write the missing number in the calculation.

$$5 + \square = 7$$

$$6 + \square = 9$$

$$3 + \square = 5$$

$$8 + \square = 10$$

Draw the correct number of counters into the empty butterfly wing. Write the missing number in the calculation.

$$1 + \square = 7$$

$$4 + \square = 9$$

$$2 + \square = 9$$

$$7 + \square = 8$$

Butterfly Addition to 10 Answers

How many counters are in each butterfly wing? Count them and solve the calculation.

$$4 + 2 = 6$$

$$2 + 3 = 5$$

$$6 + 3 = 9$$

$$4 + 4 = 8$$

Draw the counters into the butterflies' wings and solve the calculation.

$$4 + 3 = 7$$

$$8 + 2 = 10$$

$$5 + 1 = 6$$

$$5 + 4 = 9$$

Draw the correct number of counters into the empty butterfly wing. Write the missing number in the calculation.

$$5 + 2 = 7$$

$$6 + 3 = 9$$

$$3 + 2 = 5$$

$$8 + 2 = 10$$

Draw the correct number of counters into the empty butterfly wing. Write the missing number in the calculation.

$$\boxed{1} + \boxed{6} = \boxed{7}$$

$$\boxed{4} + \boxed{5} = \boxed{9}$$

$$\boxed{2} + \boxed{7} = \boxed{9}$$

$$\boxed{7} + \boxed{1} = \boxed{8}$$
